

Zoonoses 2023 - International Symposium on Zoonoses Research

Tuesday, 10 October 2023

Session 5: Environmental factors & Ecology of Zoonotic Infections - MOA 4+5 (11:00 - 12:30)

time	[id] title	presenter
11:00	[311] Establishment of an endemic West Nile virus maintenance cycle in Berlin	Dr PATZINA-MEHLING, Corinna
11:15	[203] Human land-use change alters immunogenetic-pathogen links in a generalist rodent and zoonotic reservoir	FLEISCHER, Ramona
11:30	[228] Role of a novel pilus protein in DNA uptake and natural transformation of <i>Campylobacter jejuni</i>	Dr GOLZ, Julia
11:45	[232] Mathematical modeling of mosquito borne diseases in Germany	Mr DUVE, Pride
12:00	[208] Human-to-human transmission of Andes hantavirus modeled in the Syrian hamster	RIESLE SBARBARO, Silke
12:15	[239] Integrative early-warning modelling of West Nile virus transmission in Germany	MARTINS AFONSO, Sara Margarida
