

Zoonoses 2023 - International Symposium on Zoonoses Research

Wednesday, 11 October 2023

Session 11: Host-pathogen Interactions 2 - MOA 4+5 (12:30 - 14:00)

| time | [id] title | presenter |
|-------|--|----------------------|
| 12:30 | [202] MHC genes regulate host gut microbiome in bats with acute coronavirus infections | SCHMID, Dominik W. |
| 12:45 | [190] The bat-derived influenza A viruses H18N11 infects and replicates in leukocytes | KESSLER, Susanne |
| 13:00 | [187] Therapeutic Oral Application of Carvacrol Alleviates Acute Campylobacteriosis in Mice Harboring a Human Gut Microbiota | Dr HEIMESAAT, Markus |
| 13:15 | [218] Differential autophagy and immune signaling in human and Rhinolophus bat cells during SARS-CoV-2 infection | Dr NOMBELA, Ivan |
| 13:30 | [219] Zapnometinib – A MEK1/2-inhibitor with broad anti-SARS-CoV-2 activity, synergistic potential and a reduced risk of resistance introduction | Dr SCHREIBER, André |
| 13:45 | [224] Mosquito-specific viruses interfere with Culex-borne arboviruses | GOTHE, Sarah |
