

Session Program

31 August 2026 to 3 September 2026

Sintering 2026

Sintering for additive manufacturing

Monday 31 August

13:40

Sintering for additive manufacturing: Sintering for additive manufacturing

Session | Location: Eurogress Aachen , Room TBC

13:40-14:10

Fast laser processing and densification of silicon carbide ceramic materials

Speaker

Jie YIN

14:10-14:40

Dimensional and Geometrical Changes During Sintering of Binder Jetting Components

Speaker

Elisa Torresani

14:40-15:00

Thermal Anisotropy in Chopped Cf Reinforced SiC Composites by Laser Printing and Polymer Infiltration-Pyrolysis Techniques

Speaker

Huisheng Tian

15:00-15:20

Direct selective laser sintering and properties of SiC ceramics doped with Al₂O₃-Y₂O₃

Speaker

Jiayi Geng

15:20-15:40

Development of Sintering Methods for Near Net Shaping of Copper by Selective Powder Deposition

Speaker

Dr Bram Neirinck

15:40

16:00

Sintering for additive manufacturing: Sintering for additive manufacturing

Session | Location: Eurogress Aachen, Room TBC

17:30

Thursday 3 September

11:10

12:30

Sintering for additive manufacturing

Session | Location: Eurogress, Room TBC
