

# **Annexins 2019 – 10th International Conference on Annexin Biology**

**Sunday 15 September 2019 - Wednesday 18 September 2019**

**Schloss**

## **Scientific Programme**

**10th International Conference on Annexin Biology, Münster, Germany** Sunday, September 15  
– Wednesday, September 18, 2019  
**Sunday**

**Welcome Address**

Volker Gerke & Ursula Rescher  
*local organizer*

**Evening lecture**

Ludger Johannes, Institut Curie-Paris, France  
*Lectin-driven and glycosphingolipid-dependent construction of endocytic pits*

**Opening Reception (Schloss)**

mix and mingle while enjoying food and drinks at Münster's baroque city palace, now used by the university.

**Monday**

**Annexins and Cellular Organization**

**• Membrane dynamics and plasticity (incl. membrane contacts)**

Thomas Grewal, University of Sydney, Australia  
*Role of annexins in cellular cholesterol transport*

Tina Iverson, Vanderbilt University, USA  
*Annexin structure and membrane binding*

Stephen Moss, University College London, UK  
*Annexin A8 and retinal pigment epithelial cell differentiation*

**Annexins and Cellular Organization**

**• Endo- and exocytosis**

Sylvette Chasserot-Golaz, Université de Strasbourg, France  
*Annexins in regulated exocytosis*

Carlos Enrich, University of Barcelona, Barcelona, Spain  
*Endocytic pathways affected by annexins*

Clare Futter, University College London, UK  
*Membrane contacts between ER and late endosomes*

**Annexins in Health and Disease I**

**• Diseases (cancer, inflammation)**

Felicity Gavins, Louisiana State University, Shreveport, USA  
*Formyl peptide receptors and annexin A1 in cardiovascular diseases*

Katherine Amberson Hajjar, Weil Cornell Medical College, New York, USA  
*The annexin A2 system and angiogenesis*

Lirlândia Pires de Sousa, Federal University of Minas Gerais, Belo Horizonte - Brazil  
*The annexin A1/FPR2 axis in pneumococcal pneumonia and polymicrobial sepsis*

## **Annexins in Health and Disease I**

### **• Diagnosis and treatment**

Mauro Perretti, Queen Mary University of London, UK  
*Tissue protective properties of annexin A1*

Chris Reutelingsperger, Maastricht University, The Netherlands  
*Annexins as biomarkers*

### **Conference BBQ**

on the Hier&Jetzt restaurant terrace facing the Aasee, a lake located in the heart of the city.  
Tuesday

## **Annexins in Health and Disease II**

### **• Membrane repair**

Jyoti Jaiswal, Children's Nationale Research Institute, Washington, USA  
*Annexins in tissue wound repair*

Jesper Nylandsted, University of Copenhagen, Denmark  
*Annexins in plasma membrane repair*

## **Annexins in Health and Disease II**

### **• Host-pathogen interactions**

Annette Dräger, University of Bern, Switzerland  
*Cellular responses to bacterial pore forming toxins*

Martin Kast, University of Southern California, Los Angeles, USA  
*Annexin A2 in human papillomavirus infection*

Lina Lim Hsiu Kim, National University of Singapore  
*Annexins in influenza virus replication and pathogenesis*

**Free Afternoon**

- Soccer tournament
- City Tour

**Conference Dinner and Party**

at the Schlossgarten Restaurant, located in the heart of the Schlosspark, next to the palace. Enjoy an evening meal and dance the night away.

Wednesday

**Annexins – Latest Developments and Future Perspectives**

Anna Frostegard, Karolinska Institutet, Solna, Sweden

*Annexin A5 in vascular diseases*

**Closing Remarks and Farewell**
